Each member took the names of those with whom he had, some influence or acquaintance. In this way therewill be no lost energy, and every effort will be made to make the work tell.

Mr. Charles S. Ward! of New York, director of the campaign, said last night: "The citizens' meeting this afternoon was one of the finest initial meetings I have ever seen."

Mr. L. A. Coalter, State secretary of the Young Man's Chalatter

Mr. L. A. Coalter, State Secretary of the Young Men's Christian Association, spoke on the influence of Elichmond on the other cities and towns of the State, and, indeed, on the whole Sorth.

Mr. Ward followed on the same line, stating that he had received letters and legrams by the score from all through the South for information as to the progress of the Richmond campaign. "The, whole South is watching us," said Mr. Ward.

Ward,
"It was a good meeting," said Chairman Joseph Bryan, "You young men,"

The citizens' committee will meet again Monday afternoon at 4:39 o'clock. The policy of the chairman will be to have frequent, short and decisive meetings. After Monday this whole young busi-ess men's committee will get together daily at the headquarters at 1:30, when lunch will be served, and opportunity will be given for a full conference as to ways and means. Following this conference the

This daily luncheon and conference is a very essential feature of the campaign.

Again last night Mr. O. A. Hawkins, president, with Mr. W. D. Duke, Mr. O. J. Sands and Mr. James W. Gordon, were engaged in classifying and indexing on cards specially prepared for the purpose the names of thousands of citizens who will be approached during this campaign. This index, when completed, will represent a list of all the substantial and well-to-do people of Richmond and vicinity, and has cost weeks of careful work to compile.

The thousands of citizens who pass daily the headquarters cannot but be impressed with the business-like appearance of the office. A large force of energetic and capable young ladies are preparing envelopes for the printed matter which is being distributed in large quantities. A new building prespectus is being prepared, and will be mailed on Monday. The click of a dozen type-writers shows that hundreds of letters we going out.

Last evening just before headquarters closed for the night two young business men called to leave subscriptions of \$100 tach.

The total of subscriptions to date is understood to be somewhat near \$50,000, but the officials declined to give out any statement last night. A rumor was heard about headquarters to the effect either that a new \$5,000 subscription had been received, or that one of those already made would be enlarged by \$5,000. Secretary McKee, when seen last night, would neither confirm nor deny the report.

Suggestion as to Plan.

A local architect has suggested that the plans for the proposed new Association building should be selected from a competition in which all the local architects and only local men should be invited to enter, as every local architect has subscribed more or less to the fund, and as all the money which is to make the proposed new building a reality is subscribed by. Richmond men, all of whom have their friends among the architectural profession, whom they would like to see given a fair and equal chance. He further suggest that the competition should be conducted along the lines of similar competition in other cities. That infore Emyson-awines submitted slam; B. Alson, G. G. MORE POWER FOR COMMISSION

Gives Body Authority and Means of Enforcing It to Regulate Public Service Corporations.

[Special to The Times-Dispatch.]

RALEIGH, N. C., January 11.—The third day of the session found both the Senate and House of Delegnites of the General Assembly moving along in something like a routine grind of legislation.

A large number of bills were introduced in both houses, some of them of considerable importance; the calendars were cleared by bills passed, and standing committees for both House and Senate were completed, so it may be said that in three days the machinery of the Legislature in fairly, well organized.

The bills of most general interest introduced were by Speaker Justice in the House. One relating to public service corporations prescribes that adequate service shall be maintained, forbids discrimination against persons or shipping points similarly situated, the penalty being \$500 to those suffering by discrimination and \$550 to the State; also fine and imprisonment for officers permitting discrimination. Further still, it makes it unlawful for railroad employes to work more time eight hours in twenty-four, except where trains are belated with the crew. Violation is made a misdemeaner for officers permitting it.

tion is made a misdemeanor for officers permitting it.

The Two-Cent Rate.

Another bill by Justice prescribes a two-cent rate on the Southern, Seaboard Alr Line and Atlantic Coast Line, with smaller roads on a two and a half cent basis.

Still another bill by Justice confers on the Corporation Commission plenary power to control and regulate public service corporations in the State.

A bill by Graham in the Senate is designed to reduce passenger fare to 2.1-2 cents first and 2 cents second-class, effective April 1, provided the Corporation Commission finds such would be fair to the railroads. He also presented a bill prohibiting free passages except to families of employes, and some specified exceptions, including ministers, objects of charity and others. All these bills are in the hands of committees.

money you murdered him in order to get it, and then set fire to his house and burned him up.

"No doubt you thought as you left his burning house that night that your crime was covered up forever, but like so many bad men under similar circumstances, you left out of your calculation one important element. You forgot that, though no human eye saw the deed, there was ever upon you an eye that never sleeps. The blood of this good man has cried out against you and your partner in crime from the ground, from that day until this, and the sword of eternal justice has been ever behind you until at last you, a man living in a civilized community within the sound of church bells and in sight of church steeples, have reached the end of a long career of crime which you have now crowned by a deed which would have disgraced a savage. You now stand at the bar of justice to receive at my hands the sentence of the law for this dreadful crime. The sentence of the court is that you be taken to the county jail and there be safely kept until Friday, the 15th day of February next, when, between the hours of sunrise and sunset of that day, you will be taken charge of by the proper efficer of the law for that day, you will be taken charge of by the neck until you are dead; and may the Lord have mercy on your soul."

About ten years ago Miss Partington left the stage for good and all, and came back to Richmond to spend her declining years. While she was not able to live in affluence, she had a fairly comfortable income, and she never suffered for the comforts of life.

It has been stated that since the war she played "Topsy," in Uncle Tom's Cabin. This is probably a mistake. While her peculiar ability would have enabled Miss Partington to play "Topsy" to perfection, her sentiment would have revolted against the whole Cabin business.
